Marvel Universe vs Wolverine is a prequel of sorts covering the early days of the outbreak The only change is that now the story is told from Wolverine s point of view It s difficult to know. It s said that Wolverine vs Hulk will not be the title because Marvel Studios can t use Hulk in the title as Universal Pictures still owns the distribution rights So what will happen is that it will have a different title but be a Hulk story which is similar to how they used Planet Hulk in Thor Ragnarok and also similar to how the Big Guy can appear in the various Avengers movies. Marvel universe vs the punisher may be the best of the three titles but this one is a very close second I highly enjoyed and remend this book Happy reading.
